Quarterly Operations Report

1. Executive Summary

Acme Corp delivered solid results in the third quarter. Revenue grew by twelve percent compared with the previous quarter, driven mainly by strong demand for our cloud platform and by the successful rollout of new infra-
structure in three regions. Customer satisfaction also improved, reaching its highest level in two years.

- Revenue growth of 12% quarter over quarter
- Two new data centers opened in Asia
- Support response time reduced by 30%

2. Financial Results

Operating income rose to 4.2 million dollars, helped by lower hosting costs and a disciplined hiring plan. The finance team expects the trend to continue into the next quarter, although currency movements remain a risk for

1 Figures are unaudited and rounded to one decimal place.

the regions that bill in local currency. The table below shows revenue by region (in millions).

Region	Q2	Q3	Change
Asia	4.1	4.8	+17%
Europe	3.9	4.2	+8%
Americas	5.0	5.4	+8%
Total	13.0	14.4	+11%

Asia remained the fastest growing region, which is why the board approved further investment there.

This report contains forward-looking statements that involve risks and uncertainties. Actual resul
ts may differ materially from those projected, and Acme Corp undertakes no obligation to update them.

2 Currency effects are calculated at constant exchange rates.

3. Outlook

We expect continued growth in the fourth quarter, supported by a healthy sales pipeline and by the launch of two new products. Hiring will focus on engineering and customer support.

This report contains forward-looking statements that involve risks and uncertainties. Actual resul ts may differ materially from those projected, and Acme Corp undertakes no obligation to update them.

4. Risks

1. Supply chain delays for networking hardware
2. Currency volatility in emerging markets

3 The outlook excludes any possible acquisitions.
